

TO WHOM IT MAY CONCERN

I am writing this letter of recommendation on behalf of Anirudh Brian Chadha, who served as a Data Science Summer Intern at GoDigit General Insurance Ltd. from 5th June 2023 to 31st July 2023. During their two-month tenure, Anirudh demonstrated exceptional skills, dedication, and a keen interest in data science, making a valuable contribution to our team.

Throughout the internship, Anirudh showcased a strong understanding of data science concepts and applied them effectively in real-world scenarios. Their primary project involved developing a prediction model that aimed to solve a critical business problem. I was impressed by their analytical abilities and how they tackled complex datasets with ease, leading to the successful implementation of the prediction model. The insights gained from their model have since been proven to be invaluable in making data-driven decisions, resulting in enhanced operational efficiency.

Beyond the main project, Anirudh showed great initiative by taking the initiative to explore automation and pipelining options for machine learning models. This further demonstrated their curiosity and passion for staying up to date with the latest advancements in the field.

Apart from their technical competence, Anirudh integrated seamlessly into our collaborative work environment. They actively participated in team discussions, contributing innovative ideas and engaging in constructive feedback sessions. Their excellent communication skills facilitated effective knowledge sharing, making them a valued member of our data science team.

Overall, Anirudh demonstrated exceptional potential as a data scientist during their time at Digit. Their dedication, problem-solving skills, and enthusiasm for data science make me confident in their ability to succeed in any future endeavors within this domain. I wholeheartedly recommend Anirudh for any data science role they pursue, and I am certain they will continue to make significant contributions wherever they go.

Please feel free to contact me if you have any questions regarding this recommendation.

Sincerely,

Vishal Shah
Head Data Science and Analytics
